

REMARKS/ARGUMENTS

In response to the Office Action mailed on June 23, 2004, Applicant submits a Sequence Listing in both paper and computer readable format. It is requested that the specification be amended by inclusion of the Sequence Listing. Pursuant to the accompanying Statement, no new matter is introduced by the Sequence Listing, and the sequence of all peptides included therein are disclosed in the specification as filed.

Applicant also submits a corrected Table 5 that changes SEQ ID NO:66 to SEQ ID NO:65 in conformance with the sequence listing concurrently submitted. There are a total of 65 sequences disclosed, and accordingly numbering as "66" was an error.

It is believed that the case is now in condition for examination and the same is respectfully requested.

If any issues remain, or if the Examiner believes that prosecution of this application might be expedited by discussion of the issues, the Examiner is cordially invited to telephone the undersigned attorney for Applicant at the telephone number listed below.

Respectfully submitted,

By:
